# Highlights

## 4 GB memory built-in

With the 4 GB of built-in memory, your Voice Tracer is able to capture up to 44 days of continuous recording.

## Integrated fold-out stand

With the integrated fold-out stand on the back of the Voice Tracer, you can conveniently position your voice recorder towards the sound source.

## 360-degree sound pickup

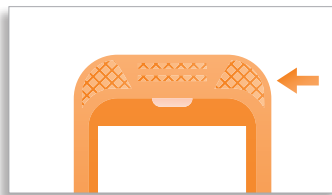

The revolutionary boundary layer microphone is, as opposed to other prevalent devices, nondirectional. The design allows sound pick-up from a 360 degree radius, so that no important details are lost.

## Line-in recording

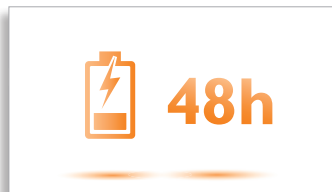

With the built-in line-in connection you are able to connect and record from external sound sources. Simply connect to the line-in plug and start recording.

## Metal microphone grille

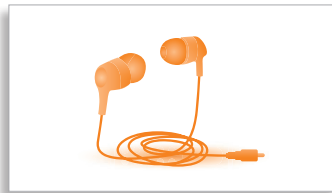

A well-engineered microphone grille is able to make a good microphone stand out even more. The grille built into the new Voice Tracers guarantees crystal clear recordings.

## Extra long battery runtime

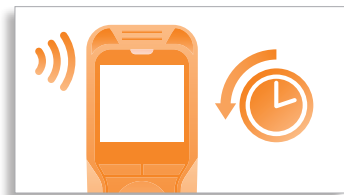

The batteries of the new Voice Tracers last for up to 48 hours for extra long recording sessions.

## Premium headphones included

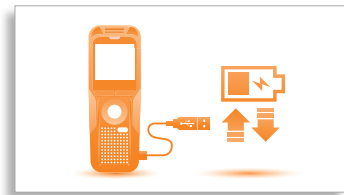

The included Premium headphones are the perfect companion for your Voice Tracer. The in-ear design delivers a superior bass response, crisp highs and a great balance.

## Prerecording

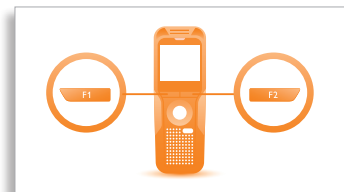

The prerecording function allows you to record sound sources from approximately three seconds prior to pressing the record button.

## Rechargeable batteries

The new Voice Tracers come with rechargeable batteries for more than 50 hours of continuous recording. Additionally, you can help protect the environment by simply recharging the batteries of your device using USB instead of buying new batteries.

## Smart keys

The two ergonomically placed smart keys allow for convenient, quick and direct access to the most important features of your Voice Tracer.
