Highlights

Built-in wire storage

The innovative conference microphone offers built-in wire storage and length adaption for a clean and tidy conference table.

Expandable through cascading

Cascading allows for maximum expandability.

Fast and easy set up

The fast and easy set up of the meeting microphone allows a hassle-free installation.

No microphone stand required

The Philips conference microphone does not need a stand to set it up and therefore offers outstanding ease of use. Revolutionary technology in a straightforward form.

360 degree sound pick-up

Sound pick-up from a 360 degree radius for a perfect recording experience.

Boundary layer design

The innovative boundary layer design of the conference microphones uses the sound pressure of the table to provide excellent sound and recording quality.
